

NexAira Software Release Notes

Name	NexWare i ³ GUI
Release Date	June 5, 2009
This Version	AA1.0.00
Replaces Version	ND7.5_20090115_1458
Intended Product	NexAira NexConnect NEXUSB08
File Size	3.5MB
Supported Operating System	Windows XP and Vista (all service packs and versions) Mac OS 10.6 (and newer) Linux

Overview

AA1.0.00 is a firmware upgrade based on a new platform that delivers an increased ability for upload and download throughput and a simplified and Interactive Intuitive Iconic Graphical User Interface (i³GUI) designed to allow the user to easily configure their NexAira NexConnect Router(s) through intuitive icons all visible from the main menu. The new Setup Wizard simplifies the user's choices as it expedites the process of connecting to the internet. The new firmware also has an increase in ISP data card support.

What's New in this Release / Features Added:

Increased upload and download throughput.

i³GUI: Interactive Intuitive Iconic Graphical User Interface.

WiFi Encryption Enabled as Default: WPA-PSK enabled with "password" as the default key and an SSID of "NexWare".

CD Setup Wizard with Gadgets: The new Setup Wizard, included on the provided CD, begins the configuration of the router through a simplistic guided interface. Following installation, router features are accessible through installed desktop gadgets.

Increased ISP data card support.
